

- Position the front splash guard on the inner fender, and install two long self-tapping screws and one short self-tapping screw from the kit.

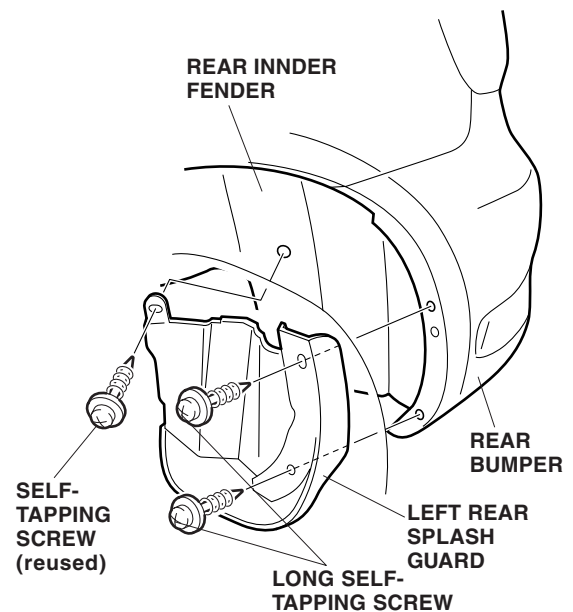

- Turn the steering wheel all the way clockwise, and repeat steps 3 and 4 to install the right front splash guard.

Installing the Rear Splash Guard

- Make sure the area to be covered is clean and has been waxed with a high-quality paste wax.
- Remove the three self-tapping screws from the rear bumper and rear inner fender.

- Position the left rear splash guard on the rear bumper, and install two long self-tapping screws from the kit and one self-tapping screw (reused).

- Repeat steps 7 and 8 to install the right rear splash guard.
