2021 RIDGELINE

Publications No.

VERSION 1

Issue Date

JAN 2021

## GENERAL VIEW

## FOR YOUR SAFETY (Read carefully.)

### Warning Symbols

Safety: Your safety, and the safety of others, is important. To help you make informed decisions about service procedures, we have provided safety messages where appropriate. Of course, it is not practical or possible to warn you about all the hazards associated with servicing a vehicle - you must use your own good judgment.

You will find important safety messages preceded by one of following symbols:

\*All symbols are not used in all installation instructions.

**⚠ DANGER**

You will be killed or seriously hurt if you do not follow the instructions.

**⚠ WARNING**

You can be killed or seriously hurt if you do not follow the instructions.

**⚠ CAUTION**

You can be hurt if you do not follow the instructions.

**NOTICE**

Gives advice to prevent damage to the product or vehicle or the environment.

**NOTE**

Gives helpful information or instructions to be followed when using the product.

Indicates a prohibited action

## Procedure and Location Icons

These icons indicate the work location and the worker's point of view.

\*All icons are not used in all installation instructions.

The location on the vehicle.

The location in the vehicle.  
(instrument panel.)

Wear eye protection.

Wear heavy gloves.

Use an assistant.

Place the part on a blanket.

Work perpendicular.

Remove any burrs.

Use touch-up paint and allow to dry.

Tighten to the specified torque.

Apply firm pressure while rolling, especially at the ends, to set the adhesive.

Press firmly.

Clean with isopropyl alcohol.

Return the original part to the customer.  
(Do not use.)

## Wire Harness Routing Precautions

Do not secure the accessory harness and SRS harness together. (except for instruction cases).

Push the connectors and terminals together until they lock.

Do not pull the harness to unplug the connectors.

Install removed connectors in their original location.

Do not pull the harness.

Secure the accessory harness as shown.

Do not pinch the harness.

Cut off the excess wire tie.

## Safety: General

- Observe all safety notes and precautions described in the service information, in addition to those described in this Installation Instruction. Be extremely careful for your safety and safety of others.
- Be careful not to damage the vehicle or the parts.
- Be extremely careful when handling retaining tabs and clips.
- Note the locations of the parts before removing them so they can be properly installed in their original positions.
- The illustrations may differ slightly from the actual accessory.

## Safety: Electric Parts

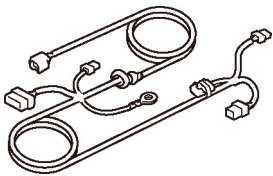

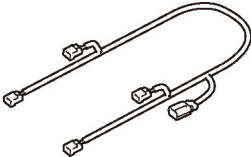

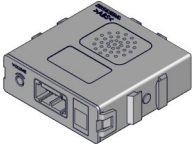

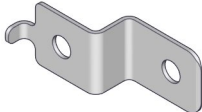

- Always disconnect the negative cable from the battery before beginning work.

## Safety: Accessory

- Always use the parts and tools specified in the installation instructions.
- Do not install the accessory on a dirty surface or in direct sunlight.
- Make sure the ambient air temperature is 60°F (15°C) or above when installing accessories that use a bonding material.
- When pressing the accessory firmly with the palm of your hand, be careful not to damage it or the vehicle.
- When applying adhesive material, make sure it is lined up properly before attaching. Once the adhesive material touches the surface, do not try to remove it. If you do, you could damage the part before the adhesive releases.
- Not to wash the vehicle for 24 hours to allow the adhesive to cure.

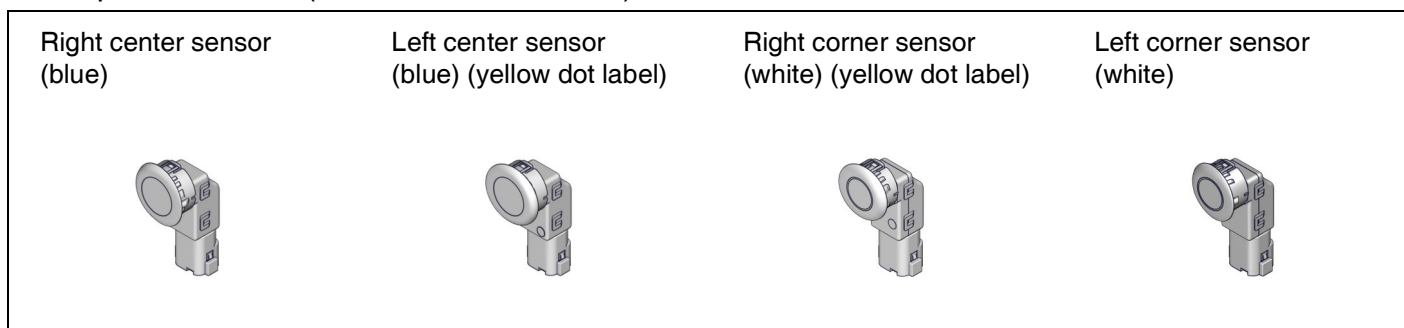

## PARTS LIST

### Attachment Kit (P/N 08V67-T6Z-100A)

<b>Harness A</b> 	<b>Harness B</b> 	<b>Buzzer</b> 	<b>Control unit</b> 
<b>Bracket</b> 	<b>Switch</b> 	<b>Switch bracket</b> 	<b>Sensor clips A (black) (2)</b> 

## Backup Sensors Kit (P/N 08V67-T6Z-100K)

## REQUIRED TOOLS AND SUPPLIES

- Phillips screwdriver
- 10 mm and 14 mm Sockets
- 3 mm Drill bit
- Ruler
- Shop towel
- Masking tape
- Rubber mallet
- Small flat-tip screwdriver
- Pushpin
- Utility knife
- Blanket
- 24 mm and 26 mm Hole saws
- Diagonal cutters
- T-30 and T-50 TORX bits
- 10 mm Open end wrench
- Ratchet
- File
- Isopropyl alcohol
- Drill
- Torque wrench
- Eye protection (face shield, safety goggles, etc.)

The following tools are available through the Honda Tool and Equipment Program:

- Trim Tool Set (T/N SOJATP2014)
- Plastic Trim Tool (T/N SILTRIMTL10)

## INSTALLATION

Using isopropyl alcohol and a shop towel, thoroughly clean the surface where the accessory adhesive will attach.

### NOTE

- Always use isopropyl alcohol where you see this symbol.
- Do not pour isopropyl alcohol directly on the vehicle surface.
- Let the isopropyl alcohol completely evaporate before attaching the adhesive material.

1. Wrap a shop towel.

### NOTE

Do not remove the shop towel until after the parts are installed.

**30-39 lb-ft  
(41.0-53.0 N·m)**

94. Install the rear trim panel cover and subwoofer.  
95. Install the rear seats.

## NOTICE

- Install in the order shown.
- Check for missing or displaced seat collars between the seat-back hooks and the body.
- Tighten the rear seat mounting bolts by hand first, then tighten them to the specified torque.

96. Check that all parts are installed and properly routed.

## NOTE

- Check that all harnesses are not pulled and not pinched.
- Make sure all clamps and wire ties are securely installed.

97. Install all removed parts except for the front bulkhead cover and intake air tube.
98. Connect the negative cable to the battery.

99. Install the front bulkhead cover and intake air tube.
100. Make sure the accessory operates as described in the Accessory User's Information Manual.
101. Make sure all accessories and systems operate properly.
102. If necessary, restore the systems back to normal operation as described in the service information.
103. Press and hold the audio unit power button for 2 seconds to restore the audio and navi (if equipped) system functions.
104. Make sure your customer receives the Accessory User's Information Manual.

## Adjust the Volume Control

### NOTE

- The factory setting is maximum volume.
- After confirming the operation, turn the volume control knob to the appropriate level, using a small flat-tip screwdriver.
- Do not force the adjuster as it could damage the unit.
