INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE: Be careful not to damage the body paint finish.

1. Remove the five nuts.

NOTE: Do not drop the nuts in the engine compartment.

2. Remove the hood air intake trim as shown.

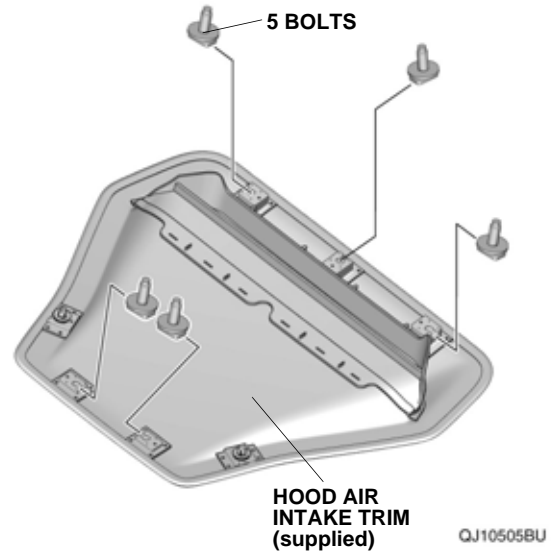

Installing the Hood Air Intake Trim

3. Remove the five bolts from the hood air intake trim.

4. Install the five bolts to the new hood air intake trim. NOTE: Make sure the bolts are fully inserted into the clip base for proper installation.

5. Install the hood air intake trim to the hood.

6. Secure the hood air intake trim to the hood with five nuts. Torque the nuts to 6.9 lb-ft (9.4 N·m).
NOTE: Do not drop the nuts in the engine compartment.
