INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE:

- Be careful not to damage the body paint finish.
- This kit should be installed only if the ambient air temperature is 60°F (15°C) or above.
- To allow the adhesive to cure, do not wash the vehicle for 24 hours. Make sure the customer is aware of this.

5. Using the alcohol wipe, thoroughly clean the rear bumper where the rear bumper protector will attach.

QH13107BN

6. Peel back the adhesive backings, and tape them to the front surface of the rear bumper protector with masking tape. Remove the remaining adhesive backings.

QD41606BK

7. Line up the rear bumper protector as shown.

QH41609AA

8. While applying light pressure to the rear bumper protector, carefully remove the taped adhesive backings as shown.

QH13108BN

9. Using a rubber roller, apply firm pressure against the rear bumper protector, and roll from one end to the other.

NOTE: Apply firm pressure especially at the ends.

10. Remove the masking tape from the rear bumper.
