### INSTALLATION

**Customer Information:** The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by “do-it-yourselfers.”

1. Remove the built-in key from the smart entry remote as shown.

2. Using a coin wrapped with a shop towel, remove the cover from the smart entry remote as shown.

3. Install the new cover to the smart entry remote. If the vehicle is equipped with a cover marked DRIVER 1, install the new DRIVER 1 cover on that remote. NOTE: Make sure the new cover is completely snapped and properly sealed.

4. Insert the built-in key to the smart entry remote.

5. Repeat steps 1 through 4 on the remaining smart entry remote.
